

# Project management qualifications for any industry or role

Certify as a Project Officer, Professional or Master

BSB40920 Certificate IV in Project Management Practice

BSB50820 Diploma of Project Management

## Enable innovation

<https://link.edu.au>

*Project management is a powerful tool for addressing the complex needs of today's organisations.*

*Unlike narrowly focused fields - such as HR, marketing, finance or IT - project management brings together an array of skill sets spanning creative and critical thinking, leadership, risk, change and stakeholder management.*

*Simply put, project management provides a structured yet flexible framework for tackling a diverse range of initiatives faster, better and in a cost efficient manner.*

Link Education graduates are decision-makers. They are the project leaders, problem solvers and innovators of the 21st century.

Unlimited, on-demand mentor support

Job-ready knowledge and skills

## Global Certification

Prior to your enrolment in our Certificate IV and Diploma programs, you must be admitted to the Institute of Project Management as a Certified Project Officer (CPO), Professional (CPP) or Master (CPM).

Before your assessment interview, you will complete all the quizzes in **OPEN**, our *Online Project Education* portal, or attend an Advanced Recognition and Certification (ARC) workshop.

Either option should take 6-12 weeks to complete.

## BSB40920 Certificate IV in Project Management Practice

Our Certificate IV program is delivered one-on-one into your workplace or home using **your** projects, programs and events as 'cases'.

Our expert mentors work virtually with you to apply and extend your knowledge in live settings through interactive discussion and assessment activities.

Our mentors are not just proven project leaders; where possible, you will be paired with someone with specific experience and expertise in your industry. Unlimited active mentor support will guarantee you receive comprehensive feedback and assistance throughout.

## BSB50820 Diploma of Project Management

In order to demonstrate your competence at the Diploma level, you are required to identify a complex public or private project that has recently completed and conduct a comprehensive review of its performance. Importantly, you must be a **stranger** to the project you review.

The entire program from initial Certification through to Diploma should take approximately 12 months; however, as the volume of learning is based on your prior experience and access to projects, experienced students with current access may demonstrate competency sooner.

For that reason, your mentor will work with you to develop a training plan that uniquely responds to your personal and professional environment and needs.
